

XV Congress
of Pediatricians
of Russia
with international participation

ACTUAL PROBLEMS OF PEDIATRICS

Moscow, March 1-3, 2024

SCIENTIFIC PROGRAM

www.congress-pediatr-russia.ru

Decade of Childhood
in the Russian Federation
2018-2027

2024
THE YEAR OF THE FAMILY
IN RUSSIA

XXV Congress of Pediatricians of Russia

with international participation

“ACTUAL PROBLEMS OF PEDIATRICS”

The I Russian-Arab Forum of Pediatricians

II Meeting of pediatric audiologists and pediatricians

III Russian-Chinese Symposium

III Congress of Pediatricians of Western Europe and Central Asia

III Russian Vaccine Assembly “Protecting Generations”

IV Conference of Social Pediatrics

IV Forum for parents

**V Summit of Medical Specialists and Health Organizers
“Nutritional Components in Health Programming”**

V Russian Conference of Pediatric Dermatologists

VI Russian forum “Volunteers to Children of Russia”

VII Hippocratic Medical Forum

XIII Eurasian Forum on Rare Diseases

XIV Forum of Pediatric Nurses

**XVII International Forum of Pediatric Surgeons
and Orthopedic Traumatologists**

will be held within the Congress.

KEY TOPICS OF THE CONGRESS

- About the implementation of the decree of the President of Russian Federation from 29.05.2017 No. 240 “About the announcement of the Decade of Childhood in the Russian Federation”
- Primary medical care for children: challenges and solutions
- Scientific and practical aspects of the pediatrics development
- Social pediatrics
- Quality audit of healthcare delivery for children
- Healthcare for children in educational organizations: school medicine
- Nutrition of healthy and sick child
- Preventive vaccination in pediatrics, family preventive vaccination
- Perinatal medicine. Neonatal surgery. Vaccination of premature children
- Urgent conditions in pediatrics and pediatric surgery
- Topical issues of pediatric dermatology, pediatric surgery and orthopedic traumatology, pediatric allergology and immunology
- Socially significant diseases in pediatrics. Problems of child disability
- Rare diseases
- Pediatric education: challenges and solutions
- Role of nursing staff in children’s healthcare
- International collaboration in the field of child health
- The history of national pediatrics
- Topical issues of volunteering in pediatrics
- The role of patient organizations in modern children’s healthcare

ORGANIZERS

- Ministry of Health of the Russian Federation
- Ministry of Science and Higher Education of the Russian Federation
- Federal Service for Supervision in Healthcare
- Federal Service for the Surveillance in the Sphere of Consumer's Rights Protection and Public Welfare
- Federal Compulsory Medical Insurance Fund
- Russian Academy of Sciences
- Russian Academy of Education
- Moscow Healthcare Department
- The Union of Pediatricians of Russia
- European Pediatric Association EPA/UNEPSA
- Pirogov Russian National Research Medical University of the Ministry of Health of the Russian Federation, Moscow
- Ural State Medical University of the Ministry of Health of the Russian Federation, Yekaterinburg
- St. Petersburg State Pediatric Medical University of the Ministry of Health of the Russian Federation, St. Petersburg
- Sechenov First Moscow State Medical University, Moscow
- Ogarev Mordova State University, Saransk
- The Turner Scientific Research Institute for Children's Orthopedics of the Ministry of Health of the Russian Federation, St. Petersburg
- Siberian State Medical University of the Ministry of Health of the Russian Federation, Tomsk
- Smolensk State Medical University of the Ministry of Health of the Russian Federation, Smolensk
- Belgorod State University, Belgorod
- Tyumen State Medical University of the Ministry of Health of the Russian Federation, Tyumen
- Scientific Centre for Family Health and Human Reproduction Problems, Irkutsk
- Pediatric Research and Clinical Center for Infectious Diseases under the Federal Medical Biological Agency, St. Petersburg
- Federal Research Centre of Nutrition, Biotechnology and Food Safety, Moscow
- Dmitry Rogachev National Research Center of the Ministry of Health of the Russian Federation, Moscow
- National Medical Research Center of Children's Health of the Ministry of Health of the Russian Federation, Moscow
- Blokhin National Medical Research Center of Oncology of the Ministry of Health of the Russian Federation, Moscow
- Research Centre for Medical Genetics named after academician N.P. Bochkov, Moscow

- Research Institute of Rheumatology named after V.A. Nasonova of Ministry of Education and Science, Moscow
- Central Clinical Hospital of the Russian Academy of Sciences, Moscow
- Tyumen Regional Clinical Hospital №1
- Chelyabinsk Regional Children Clinical Hospital
- The Central Pediatric Clinical Hospital of FMBA of Russian Federation, Moscow
- Morozov Children's City Clinical Hospital, Moscow
- Research Institute of Emergency Pediatric Surgery and Orthopedics, Moscow
- E.P. Glinka Republican Children's Clinical Hospital, Grozny
- Sverdlovsk Regional Medical College, Yekaterinburg
- National Medical Research Radiological Center of the Ministry of Health of the Russian Federation, Moscow
- Russian Academy of Pediatrics
- Russian Association of Specialists in Perinatal Medicine
- National Association of the Specialists in Control of Health Care-Associated Infections
- The Union of Experts in Preventive Immunization
- Russian Association of Allergology and Clinical Immunology
- Society for Pediatric Dermatology
- National Society of Pediatric Hematologist and Oncologists
- National Medical Chamber
- National Pharmaceutical Chamber
- Russian Association of Pediatric Surgeons
- Russian Association of Neurosurgeons
- Russian Society of Pediatric Oncologists
- Euro-Asian Society for Infectious Diseases
- INUNIMAI

ORGANIZING COMMITTEE

Chairman

Kotova

Evgeniya

– Deputy Minister of Health of the Russian Federation

Co-chairman

Sheshko

Elena

– Director of the department of children healthcare and maternity services of the Ministry of Health of the Russian Federation

Co-chairman

Namazova-Baranova

Leyla

– President of the Russian public organization “Union of Pediatricians of Russia”, head of the department of faculty pediatrics of the federal state autonomous educational institution of higher education Pirogov Russian National Research Medical University of the Ministry of Health of the Russian Federation, head of the research institute of pediatrics and children’s health in Petrovsky national research centre of surgery of the Ministry of Science and Higher Education of Russian Federation, chief external pediatric expert in preventive medicine of the Ministry of Health of the Russian Federation.

FOREIGN MEMBERS OF THE SCIENTIFIC COMMITTEE

Abu-Libdeh A. (*Palestine*)

Aldimirawi F. (*Syria*)

Al-Iessa K. (*Iraq*)

Al-Zoubi B. (*Jordan*)

Baiko S. (*Belarus*)

Dzhambekova G. (*Uzbekistan*)

Idilbi S. (*Syria*)

Garayeva S. (*Azerbaijan*)

Khatami K. (*Iran*)

Kushugulova A. (*Kazakhstan*)

Ma X. (*China*)

Mortada H. (*Egypt*)

Nassr A. (*Libya*)

Panovich Baichetic M. (*Serbia*)

Revenko N. (*Moldova*)

Shamsah A. (*Kuwait*)

Shen K. (*China*)

Sulaymanov S. (*Kyrgyzstan*)

Tagi-zade T. (*Azerbaijan*)

Yuldashov I. (*Uzbekistan*)

GENERAL INFORMATION

TIME AND VENUE OF THE CONGRESS

The scientific part of the Congress:

March 1–3, 2024, 9:00–18:00

Venue: Moscow, Krasnopresnenskaya embankment, 12,
World Trade Center, 4th entrance

Opening ceremony:

March 1, 2024, 18:00

The results of competitions of the Union of Pediatricians of Russia will be summed up and the winners will be awarded at the opening ceremony of the Congress:

- “Children’s Doctor 2023”
- “Pediatric Nurse 2023”
- “Pediatric medical facility 2023”
- “Educational institution of higher education in pediatrics 2023”
- “Professional educational institution in pediatrics 2023”
- “Best art and historical sketch about the history of Russian pediatrics”

Venue: Moscow, Krasnopresnenskaya embankment, 12,
World Trade Center, Congress Hall 1

Closing ceremony:

March 3, 2024, 16:00

The results of young scientists’ competition will be summed up at the closing ceremony of the Congress.

Venue: Moscow, Krasnopresnenskaya embankment, 12,
World Trade Center, Congress Hall 1

PARTICIPANTS REGISTRATION

- **March 1, 2024, 7:30–18:00**
- **March 2–3, 2024, 8:00–15:00**
World Trade Center, 1st floor, registration desks

Scientific program

March 1, 2024

	Congress Hall 1-2	Congress Hall 3	Amphitheater	Press Hall	Hall A
9:00–9:45	PLENARY MEETING I Children's health is the foundation of the nation's health				
9:45–10:30					
10:30–10:45	B R E A K				
10:45–11:30	PLENARY MEETING II Social and political forum "The health and well-being of children at year of the family: role of the state and civil society"	SYMPOSIUM Nutrition and infant GIT training: what can be wrong and how to prevent it	DISCUSSION SESSION I Reproductive potential of Russia. Demographic, social, medical, and psychological effects of abortion	SYMPOSIUM Coming to school: clinical cases and new algorithms	SYMPOSIUM Autism: From psychology to neuroscience. Part 1
11:30–12:15			PRESS SCRUM		
12:15–12:45	B R E A K				
12:45–13:30	PLENARY MEETING III Coordination Council of the Russian Academy of Science and the Russian Authors Society "Health and education of children, adolescents and youth" Interdepartmental meeting of the Ministry of Health, the Ministry of Education and the Ministry of Science and Higher Education representatives: "Health and Education of children and youth is the basis for Russia's prosperity"	SYMPOSIUM The most topical in real pediatric nutritional science and dietology	PLENARY SESSION Ceremonial meeting. Forum awards	SYMPOSIUM Nieman – Pick disease, Type A/B: diagnostic challenges and treatment options	SYMPOSIUM Autism: From psychology to neuroscience. Part 2
13:30–14:15			DISCUSSION SESSION II Security and protection of human rights before and after birth		
14:15–14:30	B R E A K				
14:30–15:15	SYMPOSIUM Genetic and cell therapy in pediatrics	SYMPOSIUM Infants nutrition: scientific trends and modern production	DISCUSSION SESSION III Maternity care. Reproductive and counterproductive technologies. Criminal aspect of abortion	SYMPOSIUM Rare diseases: how to suspect it and what to pay attention to	SYMPOSIUM Innovative approaches in children healthcare. Part 1
15:15–16:00		SYMPOSIUM Childhood infections within the focus of nutritional risks. How to avoid consequences?	DISCUSSION SESSION IV Palliative medical care in perinatal and neonatal periods: opportunities and perspectives		
16:00–16:15	B R E A K				
16:15–17:00	PLENARY MEETING IV Meeting of the scientific council commission for pediatrics and the clinical medicine section of the medical sciences department of RAS (together with State emergency service for pediatrics and therapy). Interactions between pediatric and therapeutic services in the management of patients with obesity	SYMPOSIUM Healthy child, who is he?	DISCUSSION SESSION V Chastity is the key factor of reproductive health of the younger generation	SYMPOSIUM Modern approaches to rare diseases' diagnosis and therapy	SYMPOSIUM Innovative approaches in children healthcare. Part 2
17:00–17:45			WRAP-UP MEETING		
18:00–19:00	C O N F E R E N C E O P E N I N G				

Scientific program

March 1, 2024

Hall B	Valdai Hall	Amur Hall	Volga Hall	Yenisei Hall	Ladoga Hall
BREAK					
SYMPOSIUM Acute respiratory diseases in children: updated approaches to diagnosis and management (2 reports #)	SYMPOSIUM # Difficult path to long-term control of bronchial asthma: how to achieve it?	SYMPOSIUM # Respiratory infections during 2023–2024: infectious challenges and treatment options SYMPOSIUM # New respiratory challenges in 2024: finding solutions	SYMPOSIUM Primary immunodeficiency in the neonatal screening era	SYMPOSIUM # Path to health through balance, pharmacologist's and pediatrician's view SYMPOSIUM # Recurrent abdominal pain in children. What's new?	SYMPOSIUM Leading trends of Russian preventive vaccination development (2 reports #)
BREAK					
SYMPOSIUM # Practical solutions for daily clinical issues in pediatrician practice. Experts inspire	SYMPOSIUM # Asthma all the way from A to Z	SYMPOSIUM New horizons: integrative approach to the therapy of upper respiratory tract diseases in children (2 reports #)	SYMPOSIUM Pediatric oncologists to pediatricians. Part 1	SYMPOSIUM Topical issues of digestive diseases in children (report #) SYMPOSIUM # Abdominal pain in pediatric practice: differential diagnosis and treatment options	SYMPOSIUM # Rotavirus infection preventive vaccination: the reality of today SYMPOSIUM Adherence to preventive vaccination
BREAK					
SYMPOSIUM # Modern view on functional GIT disorders in children	SYMPOSIUM # Pediatric workshop: "Multidisciplinary approach to allergic rhinitis and bronchial asthma management"	SYMPOSIUM # Current trends in influenza prevention and management in children	SYMPOSIUM Pediatric oncologists to pediatricians. Part 2	SYMPOSIUM Multidisciplinary problems of pediatric rheumatology	SYMPOSIUM # Fighting the leading cause of bronchiolitis and pneumonia: neonatologist and pediatrician dialogue SYMPOSIUM Key aspects of successful preventive vaccination: learning to combat infections and severe diseases (report #)
BREAK					
SYMPOSIUM Nutritional support in pediatrics: reality and perspectives?	SYMPOSIUM # IgE-mediated diseases: from pathogenesis to target therapy	SYMPOSIUM Multidisciplinary approach to the management of respiratory viral infections in children: pediatrician, infectiologist and otorhinolaryngologist views	SYMPOSIUM Pediatric oncologists to pediatricians. Part 3 SYMPOSIUM # Diagnosis and prevention of tuberculosis infection in children. Achievements and perspectives	SYMPOSIUM Rheumatological manifestations of genetic diseases: evident and presumable	SYMPOSIUM # Together against meningitis
CONFERENCE OPENING					

- # — The symposium or lecture is not included in the CME
- — III Russian Vaccine Assembly "Protecting Generations"
- — IV Conference of Social Pediatrics
- — V Summit of Medical Specialists and Health Organizers "Nutritional Components in Health Programming"

- — VII Hippocratic Medical Forum
- — XIII Eurasian Forum on Rare Diseases
- — XVII International Forum of Pediatric Surgeons and Orthopedic Traumatologists

Scientific program

March 2, 2024

	Congress Hall 1	Congress Hall 2	Congress Hall 3	Amphitheater	Press Hall
9:00–9:45	ROUND TABLE Meeting of chief external experts of the Ministry of Health of Russia. Meeting of profile commission meeting on pediatrics and pediatric preventive medicine. Pediatricians on the federal agenda: best regional practices. Part 1	SYMPOSIUM Health protection of children in Russia and China in the 21 st century: best practices	SYMPOSIUM Improving palliative care quality in children's inpatient care-giving institutions	SYMPOSIUM # Dermatological and cosmetic products in the pediatrician practice. Kaleidoscope of possibilities	SYMPOSIUM # Step forward. New possibilities for Hunter syndrome assessment and management
9:45–10:30	Meeting of chief external experts of the Ministry of Health of Russia. Meeting of profile commission meeting on pediatrics and pediatric preventive medicine. Pediatricians on the federal agenda: best regional practices. Part 2				
10:30–10:45	BREAK				
10:45–11:30	ROUND TABLE Meeting of chief external experts of the Ministry of Health of Russia. Meeting of profile commission meeting on pediatrics and pediatric preventive medicine. Pediatricians on the federal agenda: best regional practices. Part 2	SYMPOSIUM # Pediatrician role in type 1 diabetes management paradigm shift	SYMPOSIUM Breast milk as a model for creating effective preventive mixtures	SYMPOSIUM # Skin is the barometer of child's health. What is the role of emollients?	SYMPOSIUM # What should be brought to notice in case of patient with unusual phenotype?
11:30–12:15					
12:15–12:45	BREAK				
12:45–13:30	ROUND TABLE Meeting of chief external experts of the Ministry of Health of Russia. Meeting of profile commission meeting on pediatrics and pediatric preventive medicine. Pediatricians on the federal agenda: best regional practices. Part 3	SYMPOSIUM Obesity in children and adolescents: new edges of perception	SYMPOSIUM # Infants nutrition. Current trends and new categories in pediatrician practice	SYMPOSIUM # Patient with acne at pediatrician appointment: patient management	SYMPOSIUM # Patients with primary immunodeficiency: early diagnosis matters
13:30–14:15				SYMPOSIUM # Atopic dermatitis: innovations in skin care	SYMPOSIUM # Rare patient in mass screening program: interactions at different medical care levels
14:15–14:30	BREAK				
14:30–15:15	ROUND TABLE Meeting of chief external experts of the Ministry of Health of Russia. Meeting of profile commission meeting on pediatrics and pediatric preventive medicine. Strategies and new outlines of graduate medical education	SYMPOSIUM Microbiota and obesity in children	SYMPOSIUM # Scientific and intellectual game "What? Where? When?"	ROUND TABLE # Early intervention in the management of patients with atopic dermatitis	SYMPOSIUM # Alajille syndrome: diverse and mysterious
15:15–16:00					
16:00–16:15	BREAK				
16:15–17:00	ROUND TABLE Meeting of chief external experts of the Ministry of Health of Russia. Meeting of profile commission meeting on pediatrics and pediatric preventive medicine.	SYMPOSIUM # Bacterial lysates: do we use all the possibilities?	SYMPOSIUM # Unresolved issues of nutritional insufficiency prevention and correction in children	SYMPOSIUM Modern intensive care technologies for critical conditions in neonatology	SYMPOSIUM # Early diagnosis and management of patients with mucopolysaccharidosis in the daily practice of physicians with pediatric specialties
17:00–17:45	Analysis of hospital mortality: reserves of children medical care organization. Planning and organization of requirement campaign for the immunobiological products purchase		SYMPOSIUM Rational nutrition for the healthy children development (report #)		

Scientific program

March 2, 2024

Hall A	Hall B	Valdai Hall	Amur + Yenisei Hall	Volga Hall	Ladoga Hall
SYMPOSIUM Topical issues of school medicine. Part 1	SYMPOSIUM Lipid metabolism in children	SYMPOSIUM # Innovations in influenza management: one maneuver to combat the virus	SYMPOSIUM Clinical pharmacology in pediatrics. Part 1	SYMPOSIUM # ARVI in children: modern management approaches	SYMPOSIUM # Vaccine-preventable diseases in metropolis. Modernization prospects of the regional immunization schedule
		SYMPOSIUM # Multidisciplinary approach to atopic dermatitis management in young children			
BREAK					
SYMPOSIUM Topical issues of school medicine. Part 2	SYMPOSIUM Difficult diagnosis in pediatric cardiology	SYMPOSIUM # Microbiome: probiotics and probiotic products. Profit or myth?	SYMPOSIUM Clinical pharmacology in pediatrics. Part 2	SYMPOSIUM Topical issues of nephrology (report #)	SYMPOSIUM # HPV vaccination: future without cervical cancer
		SYMPOSIUM Multidisciplinary approach to the patient with atopic phenotype (report #)			
BREAK					
SYMPOSIUM Medical and social problems of students. Part 1	SYMPOSIUM Cohesion and professional interactions: integrated approach to medical care for children with heart diseases	SYMPOSIUM # Multiplex allergy diagnostics: new horizons in clinical practice	SYMPOSIUM Clinical pharmacology in pediatrics. Part 3	SYMPOSIUM New technologies in modern pediatric surgery. Part 1	SYMPOSIUM # Vaccination profits in real patient stories
		SYMPOSIUM # ASIT: Say "no" to allergy and "yes" to the Spring!			
BREAK					
SYMPOSIUM Medical and social problems of students. Part 2	SYMPOSIUM Dynamic follow-up of children with congenital heart defects	SYMPOSIUM Pediatrician tactics in case of airway obstruction in children (report #)	SYMPOSIUM Small doses in major pediatrics (3 reports #)	SYMPOSIUM New technologies in modern pediatric surgery. Part 2	SYMPOSIUM Protection against widespread infections: experience of routine immunization programs across countries (report #)
		SYMPOSIUM Modern approaches to management of children with food allergies			
BREAK					
SYMPOSIUM Children's health. Primary care capabilities	SYMPOSIUM Cardiovascular pathology: pediatrician point of view	SYMPOSIUM # Medical detective	SYMPOSIUM # Pediatric progressive myopia in focus of pediatricians' attention	SYMPOSIUM Congenital and evoked skull and skeleton diseases	SYMPOSIUM Practical issues of preventive vaccination: to help the pediatrician
			SYMPOSIUM Pediatric aspects of musculoskeletal disorders rehabilitation		SYMPOSIUM Preventive vaccination for pregnant women: protection of mother and unborn child

- # — The symposium or lecture is not included in the CME
- — III Russian-Chinese Symposium
- — III Congress of Pediatricians of Western Europe and Central Asia
- — III Russian Vaccine Assembly "Protecting Generations"
- — IV Conference of Social Pediatrics

- — V Summit of Medical Specialists and Health Organizers "Nutritional Components in Health Programming"

Leyla Namazova-Baranova (Russia)

Head of the paediatric department in Pirogov Russian National Research Medical University of the Ministry of Health of the Russian Federation, head of the Pediatrics and Child Health Research Institute of Petrovsky National Research Centre of Surgery of the Ministry of Science and Higher Education of the Russian Federation, President of the Union of Pediatricians of Russia, Past-President and Council Member of the European Paediatric Association (EPA/UNEPSA), Leading expert of preventive medicine in the Ministry of Health of the Russian Federation (MoH RF), chairman of NITAG RF, member of the Executive (2019–2022) and Standing Committee (2010–2022) of the International Pediatric Association (IPA), Vice President of the Global Pediatric Pulmonology Alliance (GPPA).

- 1987 – graduated with honours from Second Moscow National Medical Institute named after N.I. Pirogov.
 - 1987–1990 – pediatric resident in the Institute of Pediatrics of AMS USSR.
 - 1990 – Postgraduate education in Germany (Dusseldorf).
 - 1990–1993 – pediatrician in allergy department in the Institute of Pediatrics of Russian Academy of Sciences (RAS).
 - 1993–2000 – senior fellow in allergy department in the Institute of Pediatrics of RAS (since 1998 – NCCH RAMS).
 - 2000–2018 – head of day patient department of NCCH RAMS.
 - 2003–2006 – chief physician of the diagnostic centre of NCCH RAMS.
 - 2006–2017 – head of the allergy and clinical immunology department, Pediatric Faculty, Moscow Medical Academy named after I.M. Sechenov (further – I.M. Sechenov First Moscow State Medical University (Sechenov University)).
 - 2006–2018 – deputy director for research – director of the Research institute of preventive pediatrics and rehabilitation of NCCH RAMS (further – Research Institute of Pediatrics NCCH RAMS).
 - 2018 – director of the Institute of medical training in NCCH MoH RF.
 - 2010 – till present – head of the paediatric department in Pirogov Russian National Research Medical University of the MoH RF.
 - 2019 – till present – head of the Pediatrics and Child Health Research Institute of Petrovsky National Research Centre of Surgery of the Ministry of Science and Higher Education of the Russian Federation.
- Author more than 1765 scientific papers. Hirsch index in Web of Science – 33. She was the scientific adviser of 66 PhD students.

Kunling Shen (China)

Shenzhen Children's Hospital
Beijing Children's Hospital, Capital Medical University

Professor, Chief Physician Doctoral Supervisor. Honorary President of Chinese Medical Association Chinese Society of Pediatrics. Counsellor of China National Clinical Research Center for Respiratory Diseases. President of China Medicine Education Association Pediatric Committee. Foreign Academician of Russian Academy of Sciences. Foreign Academician of Royal Irish Medical Association. Founding President of Global Pediatric Pulmonology Alliance (GPPA). President of Asian Society for Pediatric Research (ASPR). BOD Member of Asian Pacific Academy of Pediatric Allergy, Respirology and Immunology (APAPARI). Chief Member of Expert Committee on Children's Drug Use National Health and Family Planning Commission of P.R. China. Vice Chief Member of Chinese Medical Doctor Association-Pediatric Resident Standardized Training. Deputy Editor of the Journal of Pediatric Pulmonology.

Ma Xiaopeng (China)

President of Shenzhen Children's Hospital.
Pediatric surgery chief physician, doctoral supervisor.

1983–1988 – Undergraduate in Tianjin Medical University.
2004–2006 – Postgraduate in China Medical University.

2016–2019 – Vice President of Shenzhen Children's Hospital.
2019–Present – President of Shenzhen Children's Hospital.

Research Project. The mechanism of miR-1290 in NEC pathogenesis through the TLR 4 path-way.

Academic paper.

1. Prediction nomogram for evaluating the probability of postoperative fever in children with acute appendicitis (corresponding author).
2. The multivariate cox regression model for complete enteral nutrition after primary anastomosis in neonates with intestinal atresia (corresponding author).
3. Integrative Analysis of DNA Methylation and Gene Expression Profiling Data Reveals Candidate Methylation-Regulated Genes in Hepatoblastoma (corresponding author).
4. Prevention program for the COVID-19 in a children's digestive endoscopy center (first author).

Invention patent.

1. Excretion detection method, device, belt and storage medium.
 2. A method for the isolation and miRNA analysis of exosomes from mesenchymal stem cells.
 3. A flexible seal clamping structure and a hemostatic device for pediatric gastroenterology department.
- Member of Shenzhen CPPCC.
 - Futian District People's Congress representative.
 - Council member of Futang Children's Medical Development Research Center.
 - Member of the Pediatric Surgery Branch of the Chinese Medical Association.
 - Standing committee member of the Pediatric Surgery Branch of the Chinese Medical Doctor Association.
 - Chairman of the Pediatric Surgery Special Committee of Guangdong Maternal and Child Health Care Association.
 - Vice Chairman of Pediatric Surgery Branch of Guangdong Medical Association.
 - Deputy Director of Child Clinical Standards and Guidelines Group of Clinical Standards and Norms of Maternal and Child Health Branch of China Maternal and Child Health Association.
 - Editorial board member of the Chinese Journal of Pediatric Surgery.
 - Editorial board of Narrative Medicine.

Abdullah A M H Shamsah (Kuwait)

Pediatric consultant and Pediatric Emergency Consultant. Mubarak Al-Kabeeb Hospital, Chairman of Kuwait Pediatric Association, Chairman of Kuwait Pediatric Board, Consultant Emergency Medicine.
Royal Collage of Medicine, IRL. Canadian Board of Pediatric, American Board of Pediatric and Canadian Board of Pediatric Emergency.

Khalaf Hussein Hasan Al-Iessa (Iraq)

MBChB DCH CABP FAAP.

Professor of Pediatrics at University of Duhok.

Consultant Pediatrician at Hivi Pediatric Teaching Hospital.

1. President of Joint Iraqi-Italian Pediatric Association.
2. President and Founder of Annual International Pediatric Mediterranean Conference
3. President and Co-Founder of Pediatricians Across Continents Education (PEACE) Academy.
4. President of Annual Elite Duhok Pediatric and Neonatology Conference.
5. Immediate Past President of International Medical Academia Forum at the Iraqi Swedish Network.
6. Vice President of NRC and Annual American Pediatric Meeting.
7. Vice President of International Middle East Pediatric Conference.
8. Representative of foreign Affairs at Iraqi Pediatric Society.
9. Representative of foreign Affairs at Kurdistan Pediatric Society.
10. Editor at the International Pediatric Care Journal.
11. Editorial Board member.

University College Date of attendance Degree awarded Date of award Main subject.

Mosul Medicine 01/10/1984 M.B.Ch.B 30/06/1990 General Surgery & Medicine.

Mustanseriyah Medicine 01/10/1998 High Diploma 01/10/1999 Pediatric.

Baghdad Medicine 15/10/1995 Arab Board of Pediatrics (PhD) 01/10/1999 Pediatric.

Current position:

Academic Professor of Pediatrics / College of Medicine;

Consultant Pediatrician / Hivi pediatric Teaching Hospital;

Official Head Department of Pediatrics/ College of Medicine – University of Dohuk, 2000–2006;

General Director of Center of Early Detection of Childhood Disabilities / Duhok.

Previous post (other than University):

- Junior house officer, Mosul teaching hospitals, 1990–1992.
- General practitioner Salaheddin Military Hospital, 1992–1994.
- General practitioner Hamam Al Alil Primary HC, 1994–1995.
- Senior House Officer (postgraduate student) Al Khansaa Maternity and Childhood Teaching Hospital, 1995–1999.

Administration and Academic positions held (in University):

- Position From to Fellow of American Academy of Pediatrics, 2021–Current time.
- Professor of Pediatrics, 2021–Current time.
- Assistant professor of Pediatrics, 2009–2021.
- Lecturer in Pediatrics for postgraduates and undergraduate, 2000–2009.
- Head department of Pediatrics, 2000–2006.
- Chairman of AFP committee, 2000–2011.
- Chairman of CME in Hevi Hospital, 2005 Current time.
- Member of the Scientific Committee / College of Medicine, 2001–2003.
- Member of scientific promotion committee, 2011–2014.
- Member of the examination committee / College of Medicine, 2001–2002.
- Member of Continuous Professional Development, 2014–Current time.

Supervision of 23 post graduate students for the Arab, Iraqi and Kurdistan Board for Pediatrics.

Supervisor of 15 post graduate student for High Diploma of Pediatrics.

Supervision of 3 PHD student for Pediatric Nursery.

Supervision of 3 Master students for Pediatric Nursery.

Supervisor of one postgraduate student in child mental health.

Positions:

- President of Joint Iraqi-Italian Pediatric Association.
- President and Founder of Annual International Pediatric Mediterranean Conference.
- President and Co-Founder of Pediatricians Across Continents Education (PEACE) Academy.
- President of Annual Elite Duhok Pediatric and Neonatology Conference.
- Immediate Past President of International Medical Academia Forum at the Iraqi Swedish Network.
- Vice President of NRC and Annual American Pediatric Meeting.
- Vice President of International Middle East Pediatric Conference.
- Representative of foreign Affairs at Iraqi Pediatric Society.
- Representative of foreign Affairs at Kurdistan Pediatric Society.

Abdulsalam Issa Abed Abu-Libdeh (Palestine)

- Consultant Pediatrician & Pediatric endocrinologist.
- Head of Pediatric Endocrinology unit at the Department of Pediatrics, Makassed Hospital, Jerusalem, Palestine.
- Assistant Professor of Pediatrics & Pediatric Endocrinology at the School of Medicine, Al-Quds University.
- Vice President of Pediatric Society – Palestine.
- Member of the Pediatric Scientific Committee of the Palestine Medical Council (PMC).
- President of Palestinian society of Endocrinology & Diabetes.
- Palestine representative of ASPED (Arab Society for Pediatric Endocrinology & Diabetes).
- Secretary General of Union of Arab Pediatric Societies (UAPS).
- Head of Scientific committee for the Medical Association of Palestine.
- Member of the E-Learning Committee of the European Society of Pediatric Endocrinology (ESPE).
- Assistant Editor-in-Chief of the IPA Newsletter 2021–2023.
- Member of Scientific Research Council (2021).

Education: School of Medicine: Tishreen University: MBBS in Medicine 1987–1994 Lattakia – Syria.

Internship: Makassed Islamic Hospital 1994–1995.

Pediatric Residency: Augusta Victoria Hospital & Makassed Islamic Hospital 1/1/96–31/12/99.

Fellow-ship:

Hadassah University Hospital: Pediatric Endocrinology Fellow-ship 1/1/06–31/12/07.

Hadassah University Hospital: Pediatric Endocrinology Research 1/1/09–31/12/09.

Licensing & Qualifications:

- Licensed to practice medicine in Jordan on 1995.
- Certified Pediatrician by the Jordanian Medical Council on 2004.
- Certified Pediatrician by the Palestinian Medical Council on 2001.
- Certified Pediatrician by the Israeli Medical Council.
- Certified Pediatric endocrinologist by the Palestinian Medical Council on 2010.
- Certified Pediatric endocrinologist by the Israeli Medical Council on 2006.
- Master degree in Public health on 2021.

31 publications in peer-reviewed journals.

Mortada Hassan Fakhri El-Shabrawi (Egypt)

Emeritus Professor of Paediatrics at the Faculty of Medicine, Cairo University.

1. Standing Committee Member of the International Pediatric Association (IPA) (2019–2023).
2. President of the International Society of Tropical Pediatrics (ISTP) (2017–2022); then President of ISTP (2022/2023), then Immediate Past President of ISTP to date.
3. Member: American Association for the Study of Liver Disease (AASLD), then Fellow of the American Association for the Study of Liver Disease (FAASLD).
4. Member: European Association for the Study of the Liver (EASL).
5. Member: American Gastroenterological Association 2003/2004 (AGA).
6. Treasurer/Board Member: International Society of Tropical Pediatrics (ISTP).
7. Member of Advisory Council: International Association of Medical Colleges (IAOMC).
8. Member: American Academy of Pediatrics (AAP) 2009/2010.
9. Board Member: Egyptian Pediatric Association (EPA) 2004–2009.
10. Member: Virus “C” Free Child.
11. Secretary General: International Society of Medical Specialties (ISMS).
12. Treasurer: Egyptian Society of Pediatric Hepatology.
13. Egyptian Universities Permanent Promotion Committee for Assistant Professors (2013–2016).

MB B CH: November 1978, Cairo University (Excellent with Honours).

M Sc (Paediatrics): May 1982, Cairo University (Excellent).

M D (Paediatrics): November 1986, Cairo and London Universities as a joint supervision Doctorate Degree under supervision of late professor Alex P. Mowat.

Sahar Idlbi (Syria)

Co-Chair of International Pediatric Association IPA / Children in Humanitarian and Emergency Settings (CHES)

Secretary General of the Syrian Pediatric Society.

Consultant of Pediatric Endocrinology in Dummar Medical Center (DMC) and Private Hospitals.

Currently I am the Secretary General of the Syrian Pediatric Society, in addition to a previous period extended between 2008 and 2011.

Previously worked for 2 years as a nutrition expert in UN WFP Syria and more than 4 years of experience as a consultant nutrition building capacity at UNICEF Syria, where I developed guidelines and teaching materials and trained more than a thousand doctors and health workers on different topics such as infant & young children feeding (IYCF), community management of acute malnutrition (CMAM), and nutrition in an emergency (NIE).

Before joining the UN, and for 30 years, I was a teaching staff member in the Pediatric Endocrinology Unit in the Children's Department, Faculty of Medicine, Damascus University.

Member in National Immunization Technical Advisory Group (NITAG), lecturer member in many associations and committees like Syrian Newborn & Preterm Association, Syrian Diabetes & Nutrition Society and Arabic Pediatric Gastroenterology & Nutrition Society.

I have conducted many studies about endocrine and growth diseases in children such as; Transient Diabetes mellitus in Infancy (Medical review), Hypoglycemia in Infants, stunting in Syria, congenital adrenal syndrome etc.

I participated in many Workshops such as the Medical Static (WHO), EVIDENCE-BASED MEDICINE (UNICEF), Neonatal Screening (AUCB Beirut, Lebanon), Programming for infant and young child feeding training course (Cornell University), WHO Child Growth Standards, and many others.

Fatima Aldimerawi (Syria)

- Specialist in children diseases.
- Consultant in pediatric pulmonology and asthma in private hospitals and private clinic.
- PhD in Pediatric Pulmonology- Institute of Pediatric USSR Academy of Medicine Science.
- Member in Syrian Pediatric Society.
- Ex. consultant in pediatric pulmonology and asthma in children hospital of Damascus university.
- Ex. trainer in UNICEF programs on community management of acute malnutrition & infant and young child feeding.

Basim Mahmoud Hussein Al-Zoubi (Jordan)

1. Head, Pediatric Directorate, Ministry of health.
2. President of the Union of Arab Pediatric Societies.
3. President of Jordan Pediatric Societies.
4. Co-president of the Italian Arab Pediatric Society.
5. Member, Executive Committee of The Union of Middle East and Mediterranean Pediatric Societies.
6. Member, Standing Committee of the International Pediatric Societies.
7. Part-time Lecturer, Faculty of Medicine at the Hashemite University 2012–2020.
8. Senior consultant pediatric endocrinologist, Prince Hamzah Hospital and Al-Basheer Hospital.
9. Clinical teacher, Medical college at the Hashemite University.
10. Clinical teacher, medical college at Jordan University.
11. Member, Pediatric Scientific Council, Arab Board for Health Specialities.
12. Member, CPD Committee, Arab Board for Health Specialities.
13. Member of the following professional societies.

1. European Society for Paediatric Endocrinology, ESPE.
2. International Society for Pediatric and Adolescent Diabetes, ISPAD.
3. Pediatric Endocrinology Society, PES.
4. American Association of Clinical Endocrinologists, AACE.
5. American Endocrine Society, ES.

Doctor in Medicine, Damascus University, 1985.

Jordanian Board of Pediatrics 1996.

Pediatric Endocrinology, Jordan Medical Council certificate 2020

Clinical pediatric endocrinology fellowship UCLA, Los Angeles, USA 2007–2008.

ESPE pediatric endocrinology Fellowship UCL, London, UK 2010.

Ongoing committees membership:

1. Chairman, Jordanian National Immunization Technical Advisory Group, NITAG.
 2. Chairman, Jordanian National Growth Hormone Committee.
 3. Chairman, Jordanian national committee for measles and rubella verification /eradication.
 4. Chair, National Committee for Perinatal Mortality Registry.
 5. Chairman, Highest medical committee, MOH.
 6. Chairman, National Committee for treating patients abroad.
 7. Member, National Committee for Inherited and metabolic diseases.
 8. Co-Chair, Non-Communicable Diseases/ International Pediatric Association.
 9. Member, governance committee/ International Pediatric Association.
 10. Member, Policies and Legislation Group/ International Pediatric Association.
 11. Member, the National Committee for nutrition.
 12. Member, Child health rights committee/ National Center for Human Rights.
 13. Member, the national pediatric technical group in medico legal issues.
 14. Member, Infant formula marketing technical group/ MOH.
 15. Member, National Advisory Committee for Cerebral Palsy and DDH.
 16. Member, Children Death Review National Team.
 17. Member, National Committee for National Drug List, DRL.
 18. Member, National Committee for Hemophilia.
 19. Member, National Committee for Cystic Fibrosis.
 21. ex. Director general, Prince Hamzah Hospital.
 20. Jordan Medical Council Committees, ex chair or member.
- Chair, Accreditation and Training committee, Jordan Medical Council, 2017.
 - Chair, interns committee, Jordan Medical Council, 2013–2019.
 - Members, Highest Committee, Jordan Medical Council, 2021–2022.
 - Rapporteur, Jordan Pediatric Board, Jordan medical council, 2016–2018.
 - Member, Subspecialty verification Committee, Jordan medical council, 2019–2022.
 - Member, education and development committee, Jordan Medical Council.

Afilal El Alami Idrissi Hasan (Morocco)

SPECIALTIES:

Pediatrics.
Neonatal resuscitation.
Pediatric resuscitation.

UNIVERSITY DIPLOMAS AND TITLES

Inter-University Specialization Diploma in Pediatrics (Paris), 1991.
University Diploma in Congenital and Pediatric Cardiology (Paris), 1990.
University Diploma in Emergency Medical Aid (Paris), 1992.
Inter-University Diploma of Complementary Specialization in intensive care (Paris), 1993.
Diploma of Resident of the Hospitals of PARIS in Pediatric intensive care (Paris), 1992.
Assistant in Neonatal intensive care at CHU Cochin Port Royal (Paris), 1993.

PROFESSIONAL CAREER IN MOROCCO

Pediatric practice.
Medical Director of the Neonatal and Pediatric intensive care Center in Rabat since 1997.
Medical Director of SAMU Rabat (emergency medical assistance service: transfer by ambulance and plane) since 1997.

PROFESSIONAL ACTIVITY

President of the Moroccan Federation of Pediatrics since, 2008.
President of the Moroccan Society of Pediatrics since, 2015.
President of the Moroccan Society of Neonatal and Pediatric Emergency and Intensive care since, 2000.
Honorary president of Association of French speaking pediatricians (APLF) since, 2021.
Former President of Union of Arab Pediatric Societies (UAPS), 2013–2015/
Former president of middle eastern and Mediterranean pediatric societies (UMEMPS), 2016–2018.
Former Ambassador of the World Federation of Pediatric intensive care and critical care, 2016–2019.
Member of standing committee of international paediatric Association, 2023.

Population of the country, including the child population of the country					
140,000,000 (2022), 0–18: 30318960 (20.6%)	5,354,656	Population 4.8 million and child population under 15 years is 20%, so around 800–900 thousand	41,000,000, 17,000,000	As of February 21st, 2024 is 113,845,869. Almost 40% are below 18 years	11.5 million, including about 4.0 million under 15 years old. of the all population around 30% are non Jordanian, mainly from the neighbored countries
Boundaries of childhood (0–18 or other options, describe)					
0–18		0–12 years due to Cultural and religious reasons			0–14 years. Although the WHO definition of children ages in Jordan the hospitals accept children to the pediatric departments if they are under 14 years of age.
Where do children go to receive medical care (adult hospital, children's hospital, or other options, describe)					
Children's hospital/polyclinic, children's rehabilitation centers, children's resorts	In Palestine children typically receive medical care at a variety of facilities depending on factors such as location, accessibility and severity of the condition. Ministry of Health mainly (primary health care & general hospitals) There are Children's hospitals, general hospitals, throughout Palestine that have pediatric departments or units staffed by physicians trained in pediatric care, in addition to UNRWA clinics, NGOs & University hospitals. In more remote or underserved areas, children may receive medical care at local clinics or primary healthcare centers. Overall, the availability and quality of pediatric medical care in Palestine can vary depending on the region and resources available.	Polyclinic/primary care General hospitals Private clinic	Children Hospitals	Children Hospitals and private clinics	General hospitals, children hospitals, Health centers, private clinics

Medical care system in country					
Russia	Palestine	Kuwait	Iraq	Egypt	Jordan
Options for institutions for providing medical care to children (hospitals, primary care offices, rehabilitation centers or other, describe)					
Children's hospitals (general, surgery, cancer, psychiatric etc), primary care offices, polyclinics, rehabilitation centers, perinatal centers, resorts for children	In Palestine there are several institutions that provide medical care to children including: 1. Ministry of Health 2. NGOs 3. UNRWA 4. Community health centers 5. University Hospitals 6. Children's hospitals	General hospitals and tertiary hospitals including ENT, cancer, surgery etc.	Primary health care centers Family medicine centers Pediatric hospitals	Rarely mosques and churches	Hospitals, primary care health centers, rehabilitation centers, private clinics
Who provides medical care to children (pediatricians, general practitioners, family doctors or other specialists, describe)					
Pediatricians (mostly) and general practitioners, children's specialists (surgery, allergology, infections etc)	Pediatricians mainly	Primary care would be done by family physician and general practitioner but if in hospital it would be done by a pediatricians	Paediatricians, family medicine, doctors, general practitioners	Pediatricians and general practitioners	Pediatricians, general practitioners, family doctors
Number of pediatricians in the country					
61700 pediatricians (2022)	384	Around 1000	More than 3000	Almost 6000 registered in the Egyptian Medical Syndicate	Around 1500 pediatricians, few hundreds of them working outside Jordan specially in Gulf Arab Countries and USA
Are preventive visits to doctors provided (yes, no, if yes, describe the scheme)					
Yes, regularly, according to algorithm approved by the Ministry of Health. In polyclinics or educational settings.	Preventive visits are done mainly in the private sector. Also scheduled programs in the maternity clinics are still progressing.	Yes, through well baby-clinic in polyclinic or through OPD in government hospital	Yes As primary healthcare centres during the vaccination programs Also, at family medicine centres	Rarely	Yes, every 2 months after birth till the age of one year then every 6 months for the second year and after that every year till the age of 5.
Child mortality rates (infant mortality, under 5 mortality, 0-18 mortality)					
4,2 per 1000 live births (infant mortality), 5,5/1000 (under 5 mortality), 40,7/10000 (0-18 mortality) 2021	12.7 per 1000 live births	Around is 6/1000 infant Under 5 is 8.7/1000 child 0-18 years — not available General mortality rate 2.3/1000	33/1000		Neonatal mortality rate 9/1000 live births infant mortality rat 14/1000 under 5 mortality rate 15/1000
Structure of child mortality in the country (first 3 ranking places)

How do pediatricians receive education (pre-graduate, post-graduate, or both)					
<p>Pre-grad: pediatric or general internal medicine programmes of medical universities.</p> <p>Postgraduate internship and residentship, and master degrees</p>	<p>In Palestine, pediatricians typically receive education through both pre-graduate and post-graduate pathways:</p> <p>1. Pre-graduate Education:</p> <ul style="list-style-type: none"> • Aspiring pediatricians first pursue a bachelor's degree in medicine or a related field at a medical school or university in Palestine or abroad. This undergraduate education provides a foundational understanding of medical principles, anatomy, physiology, and basic clinical skills. • During their undergraduate studies, students may have exposure to pediatric medicine through rotations or clinical clerkships in pediatric departments or clinics. <p>2. Post-graduate Education:</p> <ul style="list-style-type: none"> • After completing their medical degree, individuals interested in becoming pediatricians undergo post-graduate training, also known as residency or specialization training, in pediatrics. • This post-graduate education typically involves several years of supervised clinical training in pediatric hospitals, clinics, and other healthcare settings. • Pediatric residents receive comprehensive training in pediatric care, including diagnosis, treatment, and management of various pediatric conditions, as well as child development, preventive care, and family-centered care. • Upon successful completion of their residency program and passing any required exams, graduates are eligible to become licensed pediatricians and may choose to further specialize through fellowship training in specific pediatric subspecialties. <p>Overall, pediatricians in Palestine undergo a rigorous educational pathway that includes both pre-graduate and post-graduate components to acquire the knowledge, skills, and clinical experience necessary to provide comprehensive healthcare for children and adolescents.</p>	<p>Pre-grad through university and teaching hospitals and post-grad usually through daily rounds and lectures.</p> <p>Doctors in Kuwait board they have academic activities</p>	<p>Yes</p> <p>We teach them Pediatric module at fifth and sixth year school, and also we have postgraduate, including Arab board, Kurdistan board</p>	<p>Postgraduate diplomas and master degrees</p>	<p>Medical school education program in Jordan is for 6 years. Students have mandatory clinical stage for 2 months in pediatric departments at the 5th academic year and a similar period at the 6th year. Also the graduated doctors have to spend 2 months in the internship year at pediatric departments. As for pediatric residency program, it is for 4 years in the accredited hospitals by the Jordan Medical council. The resident should pass a yearly exam before the final Board exam done by the council.</p>

Russia	Palestine	Kuwait	Iraq	Egypt	Jordan
Structure of disability of the child population in the country (first 3 ranking places)					
Neurodevelopmental disorders, neurological diseases, congenital anomalies	Congenital disabilities such as cerebral palsy Down syndrome and congenital heart defects	Development Genetic/ metabolic Accidents Infectious diseases	As of my last update in January 2022, the specific ranking of childhood disabilities in Iraq was not readily available. However, globally, some of the most prevalent childhood disabilities include: 1. Intellectual Disabilities: These disabilities affect a child's cognitive functioning, including their ability to learn, reason, problem-solve, and adapt to daily life. 2. Cerebral Palsy: Cerebral palsy is a group of neurological disorders that affect movement, muscle tone, and posture. It often appears in infancy or early childhood and can result in physical disabilities. 3. Autism Spectrum Disorder (ASD): ASD is a developmental disorder that affects social interaction, communication, and behavior. It typically appears in early childhood and varies widely in severity. It's important to note that the prevalence and specific ranking of childhood disabilities can vary by region and may be influenced by factors such as healthcare access, socioeconomic status, environmental factors, and cultural beliefs. For the most accurate and up-to-date information on childhood disabilities in Iraq, I recommend consulting local health authorities, disability advocacy organizations, or international reports on disability statistics.		The most common disability in children 5-19 years of age are: Visual disability Hearing disability Mental health related disabilities Motor disability
